A2/SRA2 Cardstock

We will no longer be manufacturing the above items, and you can see the quantities and colours still available within our clearance section of our website. These are available on a first come, first served basis, and once current stocks are sold, we will no longer be offering these products. Please note that some of the colours have already sold out.

Our new range of card, papers and envelopes along with our large section of creased and cut card will be available within 8-10 weeks on our website. We need to clear down our existing stocks first in order to make way for these new products.

Our website is constantly changing during this time whereby you will see changes in descriptions and quantities offered, so please double check your order prior to pressing the 'confirm' button!

Our Pocketfold Wallets & Bookfold Wallets will continue at this time to be manufactured.

You can be assured that you will continue to receive the excellent service and quality that you have come to expect from Cranberry. We really do value your continued support of our existing and ongoing product range.

Please do not hesitate to contact us for any help or additional information you may need. We appreciate your business and look forward to our continued business relationship.

Yours faithfully,

Tina Lees
Managing Director
